Does anyone in the family have a Flexible Spending Account for health expenses?

IF NECESSARY, SAY: These accounts are offered by some employers to allow employees to set aside pre-tax dollars of their own money for their use throughout the year to reimburse themselves for their own or their family members' out-of-pocket expenses for health care. With this type of account, any money remaining in the account at the end of the year, following a short grace period, is lost to the employee.
