Your Health and Health Opinions

Your opinion matters!

Medical Expenditure Panel Survey

There are a lot of clinical preventive care services available, such as screening tests for different types of cancer or heart disease. Not everyone makes the same choices about which tests to have, when to have a particular test or how often. By answering this questionnaire, you will help MEPS learn about the different choices different people make about preventive care as well as how people feel about their general health and health care.

Survey Instructions

- ◆ Please answer every question by marking one box "X." If you are unsure about how to answer a question, please give the best answer you can.
- ◆ Your participation is voluntary and all of your answers will be kept confidential to the extent permitted by law. If you have any questions about this booklet, please call Alex Scott at 1-800-945-MEPS (6377).
