Perceived health statusⁱ												
Under 65 years												
Excellent, very good, or good	4,036	0.38	9	38	8,220	0.6	1.1	0.3	0.5	0.2	1.0	
Fair or Poor	620	0.73	123	405	7,516	1.5	2.1	1.4	1.7	2.6	0.9	
65 years and over												
Excellent, very good, or good	798	0.56	60	203	5,748	1.0	2.0	1.6	0.5	0.4	0.5	
Fair or Poor	423	0.72	367	909	9,756	1.1	2.8	2.6	0.5	1.1	0.3	

^aInpatient hospital and physician services, ambulatory physician and nonphysician services, prescribed medicines, home health services, dental services, and various other medical equipment and services that were purchased or rented during the year are included. Over-the-counter medications, alternative care services, and telephone contacts are excluded.

^bPrivate insurance includes CHAMPUS and CHAMPVA (Armed-Forces-related coverage).

^cOther public programs include Department of Veterans Affairs (except CHAMPVA); other Federal sources (Indian Health Service, military treatment facilities, and other care provided by the Federal Government); other State and local sources (community and neighborhood clinics, State and local health departments, and State programs other than Medicaid); and other public (Medicaid payments reported for persons who were not enrolled in the Medicaid program at any time during the year).

^dOther includes Worker's Compensation; other unclassified sources (e.g., automobile, homeowner's, liability, and other miscellaneous or unknown sources); and other private insurance (any type of private insurance payments reported for persons without private health insurance coverage during the year, as defined in MEPS).

^eNumber of persons and amount of expenses do not add to overall total because data on this variable were not available for some sample persons.

^fUninsured refers to persons uninsured during the entire year. Public and private health insurance categories refer to individuals with public or private insurance at any time during the period; individuals with both public and private insurance and those with CHAMPUS or CHAMPVA (Armed-Forces-related coverage) are classified as having insurance.

^gPoor refers to incomes below the Federal poverty line; near poor, over the poverty line through 125 percent of the poverty line; low income, over 125 percent through 200 percent of the poverty line; middle income, over 200 percent to 400 percent of the poverty line; and high income, over 400 percent of the poverty line.

† Standard error approximately zero because of poststratification to Census Bureau population control tables

Note: These estimates are for a target population of approximately 271.3 million persons who were in the civilian noninstitutionalized population for all or part of 1997. Percents may not add to 100 because of rounding.
