Table 6. Health insurance coverage of the civilian noninstitutionalized population: For the privately insured, non-elderly^a population, policies for individual (non-group)^b health insurance, total number, and mean, median premium cost, United States, 2014

Individual (Non-group) Health Insurance Policies	Policies ^c (millions)	Mean premium cost (dollars)	Median premium cost (dollars)
All Policyholders	0.399	314	167
Single Policyholders	0.334	215	198
Family Policyholders	0.204	869	731

^aPolicyholder age: 0-64

^bIndividual (non-group) health insurance is coverage that is purchased directly from health insurers, rather than coverage through a group (e.g., employer based insurance).

^cThe table above reports policies for all policyholders as of the beginning of the year; however, as a small number of people hold multiple policies, the unique number of policyholders is slightly lower.
