Note: Definitions and descriptions of the methods used for this survey can be found in the Technical Appendix.

\*\* Positive standard error is the result of one or more non-certainty unit(s) in a size category that has historically contained only certainty units.

-- Data suppressed due to high standard errors or few reported values in cell.

User note: for the 2015 data the upper edit bound for the individual deductible amount was recalibrated, causing the average individual deductible per enrollee, in single coverage in health insurance plans that had a deductible, to increase by about five percent at the national level.
