ASSURANCE OF CONFIDENTIALITY

Information contained on this form that would permit identification of any individual or establishment is collected with a guarantee that it will be held in strict confidence by the contractor and AHCPR, will be used only for purposes stated in this study, and will not be disclosed or released to anyone other than authorized staff of AHCPR without the consent of the individual or the establishment in accordance with Section 903(c) of the Public Health Service Act (42 U.S.C. 299a-1(c)).
OVERALL PROGRAMMING SPECIFICATIONS FOR COMMUNITY QUESTIONNAIRE

Unless otherwise specified, allow DK and RF.

A. Format

1. There are three potential elements to any question: display instructions before the question, the question itself (including answer codes and categories), and program instructions that operate on the entry (such as range edits). The first is preceded by the question number; the second appears in a box that generally mimics the CAPI screen, with the question number in the upper left; and the last one is specified by "PROGRAMMER SPECS" following the question box.

2. In addition to questions, there are double-lined boxes (labelled BOX BQ1, BOX BQ2, etc.) that contain instructions which do not include a question.

B. Flow

1. If no flow instructions are specified, default to the next question or instruction box.

2. Flow may be specified in one of two ways. Simple flow -- which depends only on the question currently being asked -- may be expressed in parentheses after the question categories. Anything more than simple flow (e.g., flow instructions that involve multiple conditions or answers to previous questions) is expressed in the double-lined boxes, as described above.

C. Displays

1. Gender. We know the gender of the SP, either from sampling or from residence history. The following rules apply except where otherwise specified. If the gender is male, display "he" wherever a "{she/he}" is encountered; if female, display "she"; otherwise, display "he or she". Follow the same rules for "{her/him}" and "{her/his}". If SP gender is male, display "wife" wherever a "{husband/wife/spouse}" is encountered; if gender is female, display "husband"; otherwise, display "spouse".

2. Tense. We know whether the SP is alive or deceased, either from sampling or from residence history. If the SP is alive, except where specifically noted to the contrary, use the present tense; otherwise, use the past tense. Relevant word choices include "{is/was}", "{Is/Was}", "{lives/lived}", and "{today/Date of Death}".

3. Dates. If DAY is missing, display "MO YR". If "MO" (month) is missing, display just "YR" (year). Otherwise, display "MO DAY YR".

4. DK/RF. Unless otherwise specified, do not display DK and RF.

5. In {{IAD}/(KAD)/{SAD}} or {{KAD}/(SAD)} choices, display first known date in a left-to-right sequence. Always use facility dates for BQ, IN, CQ, and IA items. Use "best" SAD not operational one.

D. Person Roster

1. The Person Roster contains four data items: name, relationship to SP, sex, and age.

2. We use question series CQ12-15OV for Person Roster additions.

3. The SP and the respondent are always on the Person Roster. The SP is always displayed but only allowed to be selected if specified. If the SP is selected where inappropriate, this error message appears: "SP selection not appropriate here".
E. COMMUNITY RESIDENCE HISTORY

Community Residence History is primarily used for information in areas where the community respondent should have better knowledge: pre-entry and post-discharge.

Key reference dates are:

Sampled Admission Date (SAD). For current residents, the date of the most recent admission to a sampled facility prior to January 1, 1996. For first admissions, the date of the first admission to a sample facility during the reference year, January 1, through December 31, 1996.

Key Admission Date (KAD). The beginning of the episode of sampled nursing home care. The date of the first admission to a sampled facility, excluding readmission following an acute care hospital stay.

In-scope Admission Date (IAD). The beginning of an episode of eligible nursing home care. The date of the first admission to an eligible nursing facility, excluding readmission following an acute care hospital stay.

Transfer Admission Date (TAD). The date of admission to an eligible facility, either a sampled facility or a new facility, by a sampled person who transfers to the facility during the reference year as reported by the transfer facility.

End Date for Earliest Community Stay. The date of the beginning of the episode of institutionalization. The end date of the most recent time the sampled person lived in the community.

Place type definitions are as follows:

The purpose of defining place type in residence history is to define stays in eligible long-term care units to collect data for appropriate periods of time, e.g., use of acute care services, expenditures, health status.

Eligible long-term care. Stays in a bed certified by Medicaid or Medicare or licensed and providing 24 hour on-site supervision by an RN or LPN seven days a week. These places include nursing homes, nursing units of retirement centers or CCRCs and SNF wings or units of hospitals.

Ineligible long-term care. A stay in a bed that is not certified or licensed as defined above but provides services for personal care. These places include residential care places, e.g., board and care homes, personal care homes, assisted living homes, or like units of a retirement center or CCRC.

Hospital. A stay in a bed in a hospital.

Community. These places include all independent living units of retirement homes or CCRCs as well as private homes and apartments. Places that do not meet any of the above definitions are classified as community places.

First admission eligibility codes are defined as follows:

"EF" is an eligible first admission; data collection continues
"PF" is a provisionally eligible first admission; data collection continues
"IF" is an ineligible first admission; data collection stops.

There is an additional code, "SE", set when the SP has been sampled in error. For example, ineligible units were included in error on the sampling list and the SP was a resident of an ineligible unit.

The Community Residence History instrument, overviewed in Figure 1, is divided into several sections:

- **Set-up items**: For first admissions, missing items from facility are collected: date of birth and sex. For both current residents and first admissions, vital status and the dates of the reference period are established.

- **Pre-stay**: Moves backward in time from SAD to January 1, 1996, for all admissions and from SAD until KAD can be set for first admissions. This data is used to determine eligibility as a first admission.
Figure 1. Community Residence History Overview
Probe: For both current residents and first admissions, determines whether the SP spent one or more nights in another unit of the facility, a hospital, or any other place; moves forward in time from the most recent date of discharge from the facility to the end of the reference period.

Timeline Matrix/Form: For both current residents and first admissions, details of each stay are collected. These items differ slightly by type of stay.

NHPI Lookup: Determines whether any facilities outside the facility, reported for the SP in pre-entry, are eligible long-term care places.

SET-UP ITEMS

The set-up items perform two functions: first, they verify or collect certain items necessary to continue with the residence history; second, they establish the reference period. Examples of the first function include collecting vital status and date of birth. The second function depends on the SP’s vital status. If the SP is alive, then the reference period is from the most recent date of discharge from the facility through the date of interview. If the SP is deceased, then the reference period runs from the most recent date of discharge from the facility through the date of death.

PRE-STAY ITEMS

This section is completed first for discharged current residents with KAD missing. After pre-stay is complete, data will be collected for the discharge period.

This is the first section after set-up items completed for all SPs selected as admissions during Round 2 or 3. We will probe for stays prior to the Sampled Admission Date (SAD) to identify all places where the SP was resident. We will stop asking pre-stay items when a stay spans January 1, 1996, and a community stay has been reported during pre-stay, or when a community stay is reported that begins before January 1, 1996, or when there is missing data in the pre-admission items, e.g., “Don’t know” to the begin date or place name. Once the residence history is complete for this period, interviewers will search for places classified as eligible long-term care places on the NHPI. Once the NHPI search is complete, an algorithm will be run to determine whether or not the SP is eligible as a first admission. All data collection will stop for persons determined to be ineligible. Figure 2 is a flowchart representing the eligibility algorithm. Data collection for eligible SPs will continue with residence history for the period between most recent date of discharge from the facility and the end of reference period.

For eligible admissions, the algorithm programmed to determine KAD and IAD will be run after all residence history data collection is complete. The pre-stay data will be used to determine KAD and IAD. This approach to collecting pre-timeline data is, we believe, cleaner and less confusing for the respondent since we are not switching the reference points for data collection. This approach collects data from SAD back until the respondent says “Don’t know” or we collect a community stay spanning January 1, 1996. Then we move forward in time from most recent date of discharge from the facility to the end of the reference period to probe for stays between those dates.

PROBE

This probe determines whether the SP spent one or more nights in a hospital, or any other place. If the SP has not spent one or more nights in any other place, the timeline is complete. We continue asking this probe until the answer is “NO.” Stays are collected chronologically from the most recent date of discharge from the facility to the end of the reference period.

DATE QUESTIONS. For each place identified on the matrix we will collect the start date or leave date of the stay.

TIMELINE MATRIX/FORM

PLACES ROSTER. All places reported during the facility questionnaire and those reported specifically for the SP, including those reported during previous rounds, will be consolidated on the Places Roster. The first entries on the Places Roster will be the general nursing and special care units within the facility and the units affiliated with the facility collected during the facility structure. Whether these units are eligible LTC, ineligible LTC, hospital or community places will also have been defined during the facility structure data collection.

Interviewers will add to or select from the Places Roster all places reported during the community residence history data collection. The type of place will be collected and defined during residence history data collection for all places added to the Places Roster. Interviewers will search the Places Roster first for reported places and, if there
Figure 2. Community first admissions eligibility determination
is a match, will highlight the place and it will be linked to the residence history stay record. If there is no match, the interviewer will add the place to the Places Roster.

The flow of questions is directed within the timeline matrix according to whether the place is selected or added to the Places Roster. If the place is a facility unit, the question flow is directly to the Date. If the place is hospital, the question flow first goes to Hospital Questions and then flows directly to the Date. If the place is other place, the question flow first goes to Other Places Questions and then flows directly to the Date.

HOSPITAL QUESTIONS. This section collects the name, address, and type of hospital for each new hospital identified.

OTHER PLACES QUESTIONS. This section collects the name, address, and type of place. For each place, place type will be collected by asking the respondent to classify the place. Places from pre-stay classified as long-term care will be searched for on the NHPI (at the end of the residence history). Places classified as "community" will have additional probes to ascertain with whom the SP was living and whether the SP received home health services there.

NATIONAL HEALTH PROVIDER INVENTORY (NHPI)

Once the residence history data collection is completed for an SP, interviewers will search the NHPI for all places identified in pre-stay as LTC places. The frame used for the sample, the National Health Provider Inventory, will be loaded into each interviewer’s laptop computer. Interviewers will search the NHPI to attempt to match nursing homes and other long-term care institutions identified during residence history.

OVERALL PROGRAMMING SPECIFICATIONS FOR RESIDENCE HISTORY

MGMT. SYSTEM SPEC. of RESIDENCE HISTORY:

COMMUNITY QUESTIONNAIRE

CI1PRE1
Display name and relationship of community respondents from the CRR as a choice roster in descending order of CRR preference with "ADD OR CORRECT A RESPONDENT" as the last entry.

WHICH COMMUNITY RESPONDENT DO YOU WISH TO SELECT?
USE ARROW KEYS. TO SELECT/DESELECT, PRESS ENTER.
TO EXIT, PRESS ESC.

PROGRAMMER SPECS:
Modify error message to read: "At least one person must be selected."

BOX CI1 If "ADD OR CORRECT A RESPONDENT" is selected, go to CI4; else, continue.

CI1PRE2
Display name, address, city, state, zip code, and telephone number of community respondent selected in CI1PRE1.

CHOSEN COMMUNITY RESPONDENT SCREEN

NAME: 
ADDRESS: 
CITY: 
STATE: 
ZIP CODE: 
HOME TELEPHONE NUMBER: 
WORK TELEPHONE NUMBER: 

PRESS ENTER TO CONTINUE.

BOX CI2 If this is the second Community Interview for SP (for completing RH only), go to CI1PRE4;
Else, go to CI1PRE3.
CI1PRE3
Display telephone number from CI1PRE2.
If SP is a CR, display "and family"; else, display "family, and caregivers".
If CHOSEN R is SP, display "your" and "you were"; else, display "{SP's}, "{SP} was", and "{her/his}".

DIAL {HOME NUMBER}H {WORK NUMBER}W.
Hello, this is {INTERVIEWER'S NAME} calling on behalf of the U.S. Public Health Service. I would like to speak to {CHOSEN R}. [We recently sent you a letter about a nationwide study of nursing homes and their residents. We would like to know more about why {{SP} was/you were} admitted to a nursing home, so the staff at {FACILITY} gave us your name as the person who would be able to tell us about {her/his/your} situation at and before that time. The kinds of questions we will ask concern {{SP's}/your} health, living situation, {and family/family and caregivers}.]

[Your participation is voluntary and all information you provide will be held in strict confidence according to law and will be used only for research purposes.]
CONTINUE INTERVIEW ....................... 1 (CI1)
EXIT INTERVIEW ............................. 2 (CLOSING1)

PROGRAMMER SPECS:

15. FRIEND
16. NURSE/NURSE'S AIDE
17. BOARDER
18. GUARDIAN
19. BOARDER
20. FACILITY STAFF
91. OTHER FEMALE RELATIVE (SPECIFY: ________)
92. OTHER MALE RELATIVE (SPECIFY: ________)
93. OTHER NONRELATIVE (SPECIFY: ________)

BOX CI6 If coming from CI1PRE4 or CI1, go to BOX RH4; else, display CI6.

WHAT IS HIS/HER ADDRESS AND TELEPHONE NUMBER?

ADDRESS: ________________________________
CITY: ________________________________
STATE: ________________________________
ZIP CODE: ________________________________
HOME: ( ) _______ - _____________
WORK: ( ) _______ - _____________

PROGRAMMER SPECS:
If -7 to AREA CODE, fill LOCAL PHONE with same code.
Do not require entries in work fields.
Go to MENU SCREEN.

If complete date of death (month, day, and year) from facility, go to BOX RH7. Else, go to RH7.

RH7
If today's date is 1/1/97 or later, display "Was {SP} alive on December 31, 1996?"; otherwise, display "Is {SP} alive?"

IF SPEAKING TO SP, CODE 1 WITHOUT ASKING.

{Was {SP} alive on December 31, 1996?/Is {SP} alive?}

YES ........................................... 1 (BOX RH7)
NO ........................................... 0 (RH8)
DK ........................................... -8 (BOX RH7)
RF ........................................... -7 (BOX RH7)

RH8
On what date did {SP} die?

IF RESPONDENT ANSWERS "DK," PROBE: "Do you know what month {SP} died?"

MONTH ( )DAY ( )YEAR 1996

PROGRAMMER SPECS:
If DoD on or before Facility discharge date, display message "Date must be after (facility discharge date). Please re-enter."

If month is DK or RF, set Date of Death to earliest of December 31, 1996 or today. Else, if day is DK or RF, set Date of Death to last day of month or today's date if month = DOI month.

Go to BOX RH7.
If SP is deceased, set the current end of round reference period to the earliest of December 31, 1996, or the date of death from BOX RH6; Otherwise, set the end of the current round end of reference period to the earliest of 12/31/96 or the current DOI (display "December 31, 1996" or "today"). Go to BOX RH7A if first community interview. Else, go to BOX RH9A.

If sex is DK or RF from sample facility, go to RH8A; otherwise, go to BOX RH8.

ASK IF NOT OBVIOUS.
Is [SP] male or female?

MALE ......................................... 1
FEMALE ....................................... 2

If date of birth DK or RF from sample facility, go to RH9; otherwise, go to BOX RH9A.

What [is your/is/was SP's] date of birth?

ENTER A 4-DIGIT YEAR.

MONTH ( ) DAY ( ) YEAR ( )

PROGRAMMER SPECS:
Hard range for year is 1870-1995 if SP sampled in round=1; 1870-1996 if SP sampled in round=2,3.

If year of birth is DK or RF, go to RH10. Otherwise, go to BOX RH9A.
Approximately how old (are you/is SP/was SP)?
APPROXIMATE AGE IN YEARS ( )

PROGRAMMER SPECS:
Hard range is 0-125.

OTHER PLACE QUESTIONS

RH26
Please tell me the address and telephone number of (PLACE NAME FROM RH21).

ADDRESS: ____________________________
CITY: ____________________________
STATE: ____________________________
ZIP CODE: ____________________________
TELEPHONE NUMBER: ____________________________

BOX RH18
If coming from pre-stay and PLACKIND = 1, go to RH27.
Else, if coming from discharge, and PLACKIND = 1, classify as eligible LTC stay, go to BOX RH24.
Else, if PLACKIND = 2 or 3, go to RH27.
Else if PLACKIND = 5 or 91 classify as a community stay and go to BOX RH22.

RH27
{Were you/Was she/he} staying in a nursing wing or nursing unit of (PLACE NAME FROM RH21)?

YES ........................................... 1
NO ............................................ 0
DK ............................................ -8
RF ............................................ -7

BOX RH19
If coming from prestay and RH27 = 1, -7, -8 then:
Classify as eligible LTC stay.
Set flag to search on the NHPI if not previously searched.
Go to BOX RH24.
Else, if coming from discharge and RH27 = 1, then:
Classify as eligible LTC stay.
Go to BOX RH24.
Otherwise, go to RH28.
RH28

Does (PLACE NAME FROM RH21) provide help with bathing or dressing if residents need it? That is, (were you/is/was SP) staying in an assisted living or personal care unit of (PLACE NAME FROM RH21)?

YES ........................................... 1
NO ............................................ 0
DK ............................................ -8
RF ............................................ -7

BOX

If RH28 = 1, then:
  Classify as ineligible LTC stay.
  If coming from pre-stay, set flag to search on the NHPI if not previously searched.
  Go to BOX RH24.
Otherwise, go to RH29.

RH29

(Were you/Was she/he) staying in a private home or apartment at (PLACE NAME FROM RH21)?

YES ........................................... 1
NO ............................................ 0
DK ............................................ -8
RF ............................................ -7

BOX

If RH29 = 1, classify as community stay and go to BOX RH22.
Else, if coming from pre-stay, classify as ineligible LTC stay, set flag to search on NHPI if not previously searched, and go to BOX RH24.
Otherwise, classify as eligible LTC stay and go to BOX RH24.

BOX

If coming from pre-stay and SP = F2 or F3, go to BOX RH24; else, continue.
RH30
If coming from pre-stay, display "lived." Display as choice list, with categories for "DON'T KNOW" and "REFUSED" at bottom of list.

RH30
Who (lives/lived) with (you/her/him) there?

SELECT ALL THAT APPLY.
1. ALONE 8. BROTHER 15. FRIEND
2. SPOUSE 9. DAUGHTER-IN-LAW 16. NURSE/NURSE’S AIDE
3. DAUGHTER 10. SON-IN-LAW 17. BOARDER
4. SON 11. GRANDDAUGHTER 18. GUARDIAN
5. MOTHER 12. GRANDSON 91. OTHER FEMALE RELATIVE, SPECIFY
6. FATHER 13. NIECE 92. OTHER MALE RELATIVE, SPECIFY
7. SISTER 14. NEPHEW 93. OTHER NONRELATIVE, SPECIFY

(How many (PLURAL FORM OF RELATIONSHIP CODE) (live/lived) there? ( ))

PROGRAMMER SPECS:
If code 3, 4, 7-15, or 91-93 entered, overlay {How many (PLURAL FORM OF RELATIONSHIP CODE) (live/lived) there? ( )}. If attempt to enter "1" or "DK" or "RF" and any other code, display message: "You may not select any other person if (ALONE/DK/RF) selected," and return to choice list.

RH31
When there, (does/did) (you/SP) receive help with home health services from someone who (is/was) paid?

YES .......................................................... 1
NO .......................................................... 2
DK .......................................................... -8
RF .......................................................... -7

RH32 - RH34, BOX RH23 omitted.

BOX RH24
If coming from pre-stay, go to RH44A.
Otherwise, go to BOX RH25.

RH25
If coming through timeline from RH12A or RH12B, go to BOX RH27.
Otherwise, go to RH12.
PRE-STAY ITEMS

RH43PRE
If facility has only one place on Place Roster, display "(FACILITY)"; else, display sampled facility for "FACILITY" (FACILITY) (SAD UNIT)).

RH43PRE
Now, I would like to ask you about the places where (you/SP) stayed between January 1 and when (you/she/he) went to (FACILITY) (SAD UNIT) on (SAD) including staying in a hospital.

PRESS ENTER TO CONTINUE. (RH44)

PROGRAMMER SPECS:
Disallow CTRL/E on RH43PRE.

BOX RH26A
If current stay includes 1/1/96 or is SHIFT/5 in month or is -8, -7 in year and a community stay is reported within pre-stay (prior to SAD), go to RH47.
Else, if current stay started and ended prior to 1/1/96 or is SHIFT/5 in month or is -8, -7 in year and is a community stay, go to RH47.
Otherwise, go to RH44.

RH44
On the first time RH44 is asked for this SP, display:
(FACILITY) if facility has only one place; else display (FACILITY) ((SAD UNIT)).
On subsequent times RH44 is asked for this SP, display (PLACE FROM RH21) and (DATE FROM RH44A).

Display current Timeline/Stay Roster.

RH44
Can you tell me where (you/SP) stayed immediately before (you/she/he) went to (FACILITY) ((SAD UNIT)/PLACE FROM RH21) on (SAD/DATE FROM RH44A)?

YES ........................................... 1 (RH21)
NO ........................................... 0 (BOX RH27)

{STAY ROSTER}

PROGRAMMER SPECS:
Disallow DK and RF. If DK or RF entered, display message: "IF RESPONDENT DOESN'T KNOW OR REFUSES, CODE NO."
RH44A
Display current Timeline/Stay Roster.

RH44A

When did {you/she/he} start staying at {PLACE NAME FROM RH21}? PROBE FOR YEAR.

{STAY ROSTER}

IF R NEVER WILL KNOW YEAR, ENTER SHIFT/5 IN MONTH.

MONTH ( ) DAY ( ) YEAR 19( ) (BOX RH26A)

PROGRAMMER SPECS:
Hard range for year: 1900-today.

For all SPs, if date entered is after earliest known or partially known start date, display message: "Date must not be after {MOST RECENT KNOWN OR PARTIALLY KNOWN START DATE}. Please re-enter."

For instance, if the previous start date is 3/1, the current start date must not be on or after 3/1. If the previous start date is DK/DK, and the start date before that is 2/15, the current start date must not be on or after 2/15. If the previous start date is 3/DK, and the start date before that is DK/DK, and the start date before that is 3/8, then the current start date must not be on or before 3/8.

Else, for all SPs, if date is after date of birth, display hard range error message: "Date must be on or after date of birth {mm/dd/yy}). Please re-enter."

RH45 omitted.

RH46 omitted.

RH47
Display date in RH13 where community is place type for next prior stay for "END DATE OF COMMUNITY STAY."

RH47

Please tell me the city, state, and zip code for the place where {you were/SP was} living on {END DATE OF COMMUNITY STAY}.

CITY

STATE ZIP CODE (BOX RH27)
DIRECTORY LOOKUP IN COMMUNITY

| BOX RH27 | If coming from pre-stay and no places to search on the directory:  
|          |   If SP is a current round first admission, then go to BOX RH29A.  
|          |     Else go to BOX RH30.  
|          | Else, if coming from timeline (regardless of SP type), go to BOX RH31.  
|          | Otherwise, go to LOOKPRE.  |

LOOKPRE
Display number of places for this SP with flag set to search NHPI. If that number is 1, display "place"; otherwise, display "places."

LOOKPRE
Now I need to look up (NUMBER) (place/places) you told me about.
PRESS ENTER TO CONTINUE.

| BOX RH28 | Call LOOKUP module with:  
|          |   place: next place flagged to search NHPI  
|          | directory: NHPI  |

| BOX RH29 | Go to BOX RH27.  |
Design note: This box determines eligibility for Round 2 and 3 First Admits. Initially set the SP’s eligibility status to “EF”. Start with the SAD stay and move backward in time through the stays until you encounter a stay with a start date prior to 1/1/96, or until the SP has been determined to be an ineligible First Admit. For each stay:

For each stay:

If the place was not flagged to search on the NHPI, go to the next stay.

Else, if the place was not found on the NHPI (NHPI Lookup return code "2"), go to the next stay.

Else, if the place was found on the frame (i.e., NHPI Lookup return code "1"), then check if either of the following two conditions are true:

1. If PLACKIND = 1 and RH 27 is 1 (Yes), -7, (Refused) or -8 (DK)...
   OR
2. If PLACKIND = 2 and RH27 is 1 (Yes)...
   ...then change the SP eligibility code to "IF", stop looking through the stays, and go to RH48.

Else, if not enough information to search the place on the NHPI (NHPI Lookup return code "3"), and PLACKIND = 1 (Nursing Home), and RH27 is (Yes), -7 (Refused) or -8 (DK), then set the SP eligibility code to "PF" and continue checking stays.

Else, if not enough information to search the place on the NHPI (NHPI Lookup return code "3"), and the following condition is true:

1. PLACKIND = 2 and RH27 is 1 (Yes)...
   ...then set the SP eligibility code to "PF" and continue checking stays.

The pre-stay must reach back -- unambiguously -- to 1/1/96. If the pre-stay does not extend to 1/1/96, or it is not clear that the pre-stay extends to 1/1/96, then the SP is a PF.

<table>
<thead>
<tr>
<th>Date</th>
<th>Place</th>
<th>Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>12/15/96</td>
<td>1/15/96</td>
<td>Hospital</td>

</tbody>
</table>
Design note: For all SPs who received pre-stay, including current round first admissions and all Round 1 current residents missing the prior place or the prior place to hospital if hospital is prior place to SAD, this box is executed after pre-stay.

1. If SP is a current resident, go to #3 below.
   Else, if SP sampled in this round and round = 2 or 3 and coming from pre-stay, go to #2 below.
   Otherwise, go to #5 below.

2. Recalculate Community SAD. Set temporary SAD to SAD. Moving backward in time from the SAD, if there is another stay in an eligible SF unit that began on or after 1/1/96, set temporary SAD to that date. When there are no earlier stays that began on or after 1/1/96, set SAD to the temporary SAD.

3. Calculate Community KAD. Set temporary KAD to SAD. Moving backward in time from SAD, if there is another stay at an eligible unit of this facility with ONLY hospital stays <60 days intervening, set temporary KAD to that eligible facility unit admit date, and repeat. When there are no earlier stays at an eligible unit of this facility interrupted ONLY by hospital stays of <60 days, then set KAD equal to the temporary KAD.

4. Calculate Community IAD. Set temporary IAD to KAD. Moving backward in time from KAD, if there is another stay at an eligible LTC with ONLY hospital stays of <60 days intervening, set temporary IAD to that eligible LTC admit date, and repeat. When there are no earlier eligible LTC stays interrupted ONLY by hospital stays of <60 days, then set IAD equal to the temporary IAD.

5. Go to BOX RH30A.

| BOX RH30A | If SP needs discharge, go to RH12. 
Otherwise go to BOX RH31. |

| RH48 |
| Thank you very much for your help. I do not need to collect any more information for (you/SP). |
| PRESS ENTER TO CONTINUE. (CQEND) |

| BOX RH31 | If this is the first community interview for this SP, go to BQ1PRE. 
Otherwise go to CQEND. |
Some of the following questions about {SP’s/your} background refer to specific points in time while others are more general in nature. I’d like to begin by asking a few questions about prior use of long-term care.

PRESS ENTER TO CONTINUE.

If IAD is known, display (IAD FACILITY) and "IAD".
If IAD is unknown and KAD is known, display "KAD": If facility has no special care or affiliated units, display (FACILITY); else display (KAD UNIT).
If IAD and KAD are unknown, display "SAD": If facility has no special care or affiliated units, display (FACILITY); else display (SAD UNIT).

The first question is about the time before {{SP} was/you were} a resident of {IAD FACILITY/FACILITY/KAD UNIT/SAD UNIT} [on or about {IAD/KAD/SAD}]. Before that, had (she/he/you) ever been in a nursing home, residential care facility, or some other kind of long-term care facility?

YES ........................................... 1
NO ........................................... 0 (BQ9PRE)
DK ........................................... -8 (BQ9PRE)
RF ........................................... -7 (BQ9PRE)

Check age from sampling or residence history:
If SP is < 50 years old, go to CQ21PRE;
Else, continue.
CQ16
If stay immediately prior to (SAD) flagged as hospital stay, display "went to the hospital prior to" "entering":
else, display "entered".

CQ16
Did (SP) have any living children who did not live with (her/him) just before (she/he) (went to the hospital prior to) (entered/entering) the nursing home [on {SAD}]?

YES ........................................... 1
NO ........................................... 0 (BOX CQ5)
DK ........................................... -8 (BOX CQ5)
RF ........................................... -7 (BOX CQ5)

Display questions CQ17 through CQ19 on a full screen matrix and display "PERSON ROSTER" as a title above the matrix.

CQ17
Display PERSON ROSTER.

CQ17
What are the names of all the children who did not live with (her/him) at that time?

USE ARROW KEYS. SELECT/DESELECT = ENTER.
CTRL/A = ADD. CTRL/D = DELETE. ESC = EXIT.

CQ18 omitted.

Design note: When the PERSON ROSTER is invoked in CQ questions, the relationship, sex, and age questions are not shown in the specification. See general specification for questions used. Exceptions to this convention are CQ19 and CQ19OV; these questions are included because the age range differs.
CQ19

How old was {PERSON}?  
IF RESPONDENT SEEMS UNCOMFORTABLE PROVIDING AGE, ENTER "SHIFT/5".

AGE:  
UNCOMFORTABLE ..................................... -5  (BOX CQ4)  
DK ........................................... -8  (BOX CQ4)  
RF ........................................... -7  (BOX CQ4)  

PROGRAMMER SPECS:  
Hard, 0-120; Soft, 18-100.

CQ19OV

Display CQ19OV as an overlay of CQ19.

CQ19OV

Was {she/he}...

less than 18 years old, .................................... 1  
18 to 64 years old, or ...................................... 2  
65 years old or older? ...................................... 3

BOX CQ5  
Count the number of persons on roster coded as children  
(code=3 or 4):  
If count not equal to total of BQ18 + BQ19, go to CQ20; else  
go to BOX CQ7.

CQ20

If stay immediately prior to {SAD} flagged as hospital stay, display "went to the hospital prior to" "entering":  
else, display "entered".  
If second pass through CQ20 (after changing matrix), display "CHANGES...CODE1."

CQ20

Now let me check, earlier I recorded that {SP} had {BQ18 + BQ19} living children. You have just told me that SP  
had {COUNT} children before {she/he} {went to the hospital prior to} {entered/entering} the nursing home.  
Which is correct?  
(CHANGES TO MATRIX SHOULD ALLOW CODE 1.)

(COUNT) ........................................... 1  (BOX CQ7)  
(BQ18 + BQ19) ........................................ 2  (BOX CQ6)  
NEITHER ONE ........................................ 3  (BOX CQ6)  
DK ........................................... -8  (BOX CQ7)  
RF ........................................... -7  (BOX CQ7)
If CQ20 is coded “2” or “3”, display CQ20A as an overlay to CQ20; else go to BOX CQ7.

CQ20A
Display as an overlay to CQ20.

CQ20A
To correct children listed on the person roster, back up one screen to CQ17 for children not living with the SP and three screens to CQ12 for children living with the SP.

If there are more than four children who are 18 years or older, randomly choose four to flag as potential caregivers; else, flag all children 18 years or older.

Design note: Each community case will have a randomly chosen attribute that will result in the same choices on each pass.

CAREGIVERS

CQ21PRE
Display "some of the help (SP) received" if CQ5 or CQ6 or CQ7=1; Else, display "whether (SP) received help".
If stay immediately prior to (SAD) flagged as hospital stay, display "went to the hospital prior to" "entering": else, display "entered".

CQ21PRE
We’ve already talked about (whether (SP) received help/some of the help (SP) received) in the period of time just before (she/he) (went to the hospital prior to) (entered/entering) the nursing home [on (SAD)]. Now, I’d like to ask about people who may have helped or provided care to (SP) during that same period. Remember to include those who were paid as well as those who were not paid. PRESS ENTER TO CONTINUE.

If CQ5=1 (YES), go to CQ21; Else, go to BOX CQ10.
CQ21
Display PERSON ROSTER.
If SP is respondent, display "you"; else, display "{SP}".

Earlier I recorded that {{SP}/you} received help getting to places outside of walking distance, paying bills, taking medications, preparing light meals, doing laundry, or going shopping because of an impairment or a physical or mental health problem. Please tell me all of the people who helped {SP} with any of these activities. Remember to include those who were paid as well as those who were not paid.

USE ARROW KEYS. SELECT/DESELECT = ENTER.
CTRL/A = ADD. CTRL/D = DELETE. ESC = EXIT.

PROGRAMMER SPECS:
Only additions may be deleted.

BOX CQ9 If fewer than two persons selected, go to Box CQ10.

Display selections from CQ28 and "NO ONE HELPED THE MOST" as a choice roster.

CQ29
Who helped (SP) the most with any of these kinds of skilled care?

USE ARROW KEYS. TO SELECT, PRESS ENTER.
TO EXIT, PRESS ESC.

If caregivers are selected or added in CQ21 or CQ23 or CQ25 or CQ28, go to
CQ30PRE;
Else, go to BOX CQ17.

CQ30PRE
If more than one person flagged as a caregiver, display "I'll ask...helped"; else, do not display.

CQ30PRE
Now consider how often the help we have just talked about was given. {I'll ask separately for each person who helped.}

PRESS ENTER TO CONTINUE.

CQ30
If caregiver selected more than once, display "I am...combined."; else, do not display.

CQ30
Thinking about the month just before (SP) entered the nursing home [on (SAD)], about how often did
(you/PERSON) help (her/him)? (I am interested in all kinds of help combined.)
PROBE IF ANSWER TOO VAGUE TO CODE.

PRESS F1 FOR DEFINITION OF "HELP".

SEVERAL TIMES A DAY .............................................. 1
ONCE A DAY .................................................. 2
SEVERAL TIMES A WEEK ....................................... 3
ONCE A WEEK .................................................... 4
FEWER THAN ONCE A WEEK ................................. 5
CQ31

(Were you/Was PERSON) paid for the help we just talked about?

YES ........................................... 1
NO ........................................... 0
DK ........................................... -8
RF ........................................... -7

BOX CQ16
If CQ31 = 1, go to CQ32; else
If no more CGs on PERSON ROSTER, go to BOX CQ17; otherwise, go to CQ30.

CQ32
Display PERSON ROSTER.

CQ32

Who arranged for this help?

USE ARROW KEYS. SELECT/DESELECT = ENTER.
CTR/A = ADD. CTRL/D = DELETE. ESC = EXIT.

PROGRAMMER SPECS:
Allow SP to be chosen.

BOX CQ17
Check age from sampling or residence history:
If SP is < 50 years old, go to CQ41;
Else, continue.

CQ33PRE
If stay immediately prior to (SAD) flagged as hospital stay, display "went to the hospital prior to" "entering":
else, display "entered".

CQ33PRE

Now I’d like to ask some background questions about some of the people we’ve been talking about. Again, please
think about the time just before (SP) (went to the hospital prior to) (entered/entering) the nursing home [on (SAD)].
PRESS ENTER TO CONTINUE.

LOOP FROM CQ33 THROUGH CQ40 FOR EACH PERSON ON ROSTER WHO IS A SPOUSE (CODE=2), A CHILD
WHO HAS BEEN SELECTED AS A POTENTIAL CAREGIVER (CODE=3 OR 4 AND FLAGGED IN BOX CQ7), A CHILD
WHO IS AN ACTUAL CAREGIVER (CODE=3 OR 4 AND FLAGGED AS AN ACTUAL CAREGIVER), A SIBLING WHO
IS AN ACTUAL CAREGIVER (CODE=7 OR 8 AND FLAGGED AS AN ACTUAL CAREGIVER), OR A PARENT WHO IS
AN ACTUAL CAREGIVER (CODE=5 OR 6 AND FLAGGED AS AN ACTUAL CAREGIVER).
BOX CQ18

If person is respondent or lived with SP, start loop at CQ34.

CQ33

Where did (PERSON) live (at that time)? Please tell me city, state and zip code.

CITY:
STATE:
ZIP CODE:

LOOP ONCE FROM CQ34 THROUGH BOX CQ21 FOR A SON'S SPOUSE.

CQ34

If coming from BOX CQ21, display (PERSON) selected at CQ37; else, display previous loop - list {{PERSON}/you}.

CQ34

(Were you/Was PERSON) working at a job for pay?

YES ........................................... 1
NO ............................................ 0
DK ............................................ -8
RF ............................................ -7

CQ35

If coming from BOX CQ21, display (PERSON) selected at CQ37; else, display previous loop - list {{PERSON}/you}.

CQ35

Did (you/PERSON) work 35 or more hours per week?

YES ........................................... 1
NO ............................................ 0

BOX CQ19

If present loop - list person selected or added at CQ37 or is SP's spouse, go to BOX CQ21;
Else, continue.
CQ36
If stay immediately prior to (SAD) flagged as hospital stay, display "went to the hospital prior to" "entering": else, display "entered".

CQ36
In the period just before (SP) (went to the hospital prior to) (entered/entering) the nursing home [on (SAD)], (were you/was PERSON) married?

YES ......................................................... 1
NO ......................................................... 0 (CQ38)
DK ......................................................... -8 (CQ38)
RF ......................................................... -7 (CQ38)

BOX CQ20 If PERSON is SP's son (CODE=4) continue;
Else go to BOX CQ21.

CQ37
Display PERSON ROSTER.

CQ37
Who (were you/was PERSON) married to?

USE ARROW KEYS. SELECT/DESELECT = ENTER.
CTRL/A = ADD. CTRL/D = DELETE. ESC = EXIT.

BOX CQ21 If a person was added or selected at CQ37 in this pass, go back to CQ34;
Else, if PERSON was added or selected at CQ37; continue with previous person in loop list;
Otherwise, continue.

CQ38
In general, compared to other people (his/her/your) age, would you say (your/PERSON's) health was good to excellent, or was it poor to fair?

GOOD TO EXCELLENT ..................................... 1
POOR TO FAIR ........................................ 2
**CQ39**

What is the highest grade or year (you/PERS) completed in school?

IF DK, USE CATEGORIES AS PROBES.

<table>

7. SISTER  15. FRIEND

RESIDENTIAL CARE FACILITY

Assisted living facilities, board and care home, domiciliary care homes, personal care homes, and rest homes are various items for residential care facilities: places that offer residents help with activities such as bathing and dressing, but do not provide 24-hour nursing services. (Some residents at a residential care facility may not require such assistance, but it must be available to them.)

Some other common terms for residential care facilities: (IL) shelter care facilities; community living facilities; community residential alternatives; home individualized programs. (MD) group home for the mentally disabled; group senior assisted housing for the elderly. (MO) residential care centers; group care homes; group homes (adult); foster care homes; group homes. (VA) homes for adults; residential facilities.

LONG-TERM CARE FACILITY

A place that provides a residence and some surveillance and available living assistance for persons no longer willing or able to live on their own for the long term.

"Living daughters" includes natural, adopted, and step-children.

"Living sons" includes natural, adopted, and step-children.

"Living sisters" includes siblings related to the sampled person by blood, adoption, or marriage.

"Living brothers" includes siblings related to the sampled person by blood, adoption, or marriage.

"Mother” refers to natural or step-mother.

"Father” refers to natural or step-father.
DEFINITION OF SKILLED CARE

"Skilled care" is the performance of an injection or other medical procedure with a sufficient mastery of the specific technique to make the risk to the recipient negligible; this proficiency can be general as in the case of a trained health worker or acquired specifically for use with this recipient.

DEFINITION OF "HELP"

Help means assisting or supervising someone with any of the activities in these groups;
1. getting to places outside of walking distance, paying bills, taking medications, preparing light meals, doing laundry, or going shopping;
2. bathing, dressing, or getting around the house; or
3. toiling, transferring in and out of bed, or feeding.

EXPLANATION OF SERVICES

ADULT DAY CARE: Could be referred to as "adult day health center"; a place where persons are brought, looked after, and retrieved -- not a "social" center with freedom of access.

OUTPATIENT REHABILITATION SERVICE: Treatment and training that is designed to help a person disabled by accident or disease to attain the maximum possible function, a sense of well-being, and a personally satisfying level of independence.

SPECIAL MEAL PROGRAM: Meals provided in a group setting to help assure adequate nutrition for older persons. Provided at senior centers, schools, churches, or similar community institutions.

MEALS ON WHEELS: Home-delivered, usually by volunteers, mid-day or evening meals to individuals unable to shop and prepare meals on their own. Service provides enhanced nutrition, a friendly visit, and a sense of security for homebound elderly.

MENTAL HEALTH SERVICES: Diagnosis, treatment, and care -- including advice, opinion, or instruction -- of patients with emotional or other psychological problems; provided by psychiatrists, psychologists, counselors, social workers, etc.

SPECIAL TRANSPORTATION SERVICES: Providing rides for those who are unable to drive or use regular public transportation due to physical or financial limitations. May be in private vehicle or public transportation on special assignment. Used to facilitate access to supportive services or nutrition services, or both.

RESPITE CARE: Care received for only a limited time as a way of providing an interval of rest or relief to family members who are the usual primary caregivers at home.

FAMILY SUPPORT SERVICES: Assistance to the families of older persons with the purpose of identifying needs and eligibility for services and to assure that advantage is taken of appropriate programs and services.

CASE MANAGEMENT: Use of specialized knowledge and familiarity with the case circumstances to link a person (patient) to services.

WHY WE ASK THESE QUESTIONS

Questions about income and assets are important for us to understand how financial considerations may affect a person’s decision to enter a nursing home.
