ASSURANCE OF CONFIDENTIALITY

Information contained on this form that would permit identification of any individual or establishment is collected with a guarantee that it will be held in strict confidence by the contractor and AHCPR, will be used only for purposes stated in this study, and will not be disclosed or released to anyone other than authorized staff of AHCPR without the consent of the individual or the establishment in accordance with Section 903(c) of the Public Health Service Act (42 U.S.C. 299a-1(c)).
OVERALL PROGRAMMING SPECIFICATIONS FOR FACILITY BACKGROUND AND HEALTH INSURANCE

A. Format

1. There are three potential elements to any question: instructions before the question, the question itself (including answer categories), and instructions following the question. The first two are identified by the question number, and the last one is specified by "Programmer Specifications."

2. In addition to questions, there are also double-lined boxes (labelled BOX BQ1, BOX BQ2, etc.) that contain instructions which do not include a question.

B. Flow

1. If no flow instructions are specified, default to the next question box.

2. Flow may be specified in one of two ways. Simple flow -- which depends only on the question currently being asked -- may be expressed in parentheses after the question categories. Anything more than simple flow (including flow instructions that involve missing data such as DK or RF, or that involve answers to previous questions) are expressed in the double-lined boxes, as described above.

C. Displays

1. Gender. We know the gender of the SP, either from sampling or from question RH6 in Residence History. If the gender is male, display "he" wherever a "{she/he}" is encountered; if female, display "she"; otherwise, display "he or she". Follow the same rules for "{her/him}" and "{her/his}". If SP gender is male, display "wife" wherever a "{husband/wife/spouse}" is encountered; if gender is female, display "husband"; otherwise, display "spouse".

2. Tense. We know whether the SP is alive or deceased, either from sampling or from question RH7 in Residence History. If the SP is dead, use the past tense; otherwise, use the present tense. Relevant word choices include "{is/was}", "{is/Was}", "{lives/lived}", and "{today/Date of Death}".

3. Facility/Eligible Unit. From the facility questionnaire, we know whether the facility has any affiliated units, and if so, we know the unit in which the SP was sampled. For the word choice "{FACILITY/ELIGIBLE UNIT}", display the unit where the SP was sampled if the facility has such units; otherwise, display the facility name.

4. Dates. If "DAY" is missing, display "MO", "YR". If "MO" is missing, display just "YR". Otherwise, display "MO", "DAY", "YR".

5. DK/RF. Unless otherwise specified, do not display DK and RF.

6. MEDICAID DISPLAY: Display "{PREFERRED NAME FOR MEDICAID} {(or "ALLOWED FOR" NAME FOR MEDICAID)}" given by matching the state of the facility’s address with a state in the table of State Medicaid Names included in the Facility Questionnaire specifications.

MGMT SYSTEM SPEC.: 

1. Unless otherwise specified, allow DK and RF.

2. FIRST ADMINISTRATION: Items for which data retrieval with another facility respondent is required are specified as are those items which require data retrieval with a community respondent. If not specified, then data retrieval is not required.

3. DATA RETRIEVAL: Retrieval respondents will be identified as part of the FROG process (see FACILITY QUESTIONNAIRE specifications).
BACKGROUND QUESTIONNAIRE (BQ)

BOX BQ1
If first time through BQ for this respondent, continue; else, go to BQ1PRE2.

BQ1PRE1
Display Stay Roster

BACKGROUND

The following questions are about {SP’s} background including (her/his) life-time use of long-term care, demographics, and (her/his) immediate family. In answering some of these questions, you might find it useful to refer to various records. Some of these questions refer to specific points in time while others are more general in nature. I’d like to begin by asking a few questions about prior use of long-term care.

PRESS ENTER TO CONTINUE.

BOX BQ2
Go to BQ1.

BQ1PRE2
Display Stay Roster

BQ1PRE2
The following questions are about {SP’s} background.

PRESS ENTER TO CONTINUE.

BQ1
If IAD is known, display {IAD FACILITY} and "IAD".
If IAD is unknown and KAD is known, display "KAD": If facility has no special care or affiliated units, display {FACILITY}; else display {KAD UNIT}.
If IAD and KAD are unknown, display "SAD": If facility has no special care or affiliated units, display {FACILITY}; else display {SAD UNIT}.

The first question is about the time before {SP} was a resident of {IAD FACILITY/FACILITY/KAD UNIT/SAD UNIT} on or about {IAD/KAD/SAD}. Before that, had {she/he} ever been in a nursing home, residential care facility, or some other kind of long-term care facility?

YES .................................................. 1
NO .................................................. 0 (BQ9PRE)
DK .................................................. -8 (BQ9PRE)
RF .................................................. -7 (BQ9PRE)

PROGRAMMER SPECS:
Set flag for date used: IAD/KAD/SAD.
BQ2

What type of facility was that?

PROBE: Which of these was the first one?

NURSING HOME .............................................. 1
RESIDENTIAL CARE FACILITY ................................. 2
OTHER LONG-TERM CARE FACILITY ............................. 3

PRESS F1 FOR DEFINITIONS OF RESIDENTIAL CARE OR LONG-TERM CARE FACILITY.

BQ3

Display Facility type entered in BQ2; else if BQ2 = -8 (DK) or -7 (RF), display all with ""," and "or".

BQ3

When was the first time that {SP} ever entered {a nursing home (,)/a residential care facility {or}/some other kind of long-term care facility}? 

MONTH ( ) YEAR 19( )

DK ........................................... -8
RF ............................................ -7

PROGRAMMER SPECS:
If FLU YR > IAD/KAD/SAD YR, display error message as overlay: "Year must be same as or before (IAD/KAD/SAD YR). Remind Respondent that (she/he) told you earlier about a nursing home {SP} entered on (IAD/KAD/SAD). Press CTRL/K to enter explanation in comments."

BOX BQ3

(More Below)

If "MD" is selected, the flow is to BQ_MISS.
PROGRAMMER SPECS:

When item 1 is selected, the interviewer is presented with the missing data summary screen. This screen provides for review of all BQ missing data for the SP. It will have a permanent header, centered, that says: THE FOLLOWING ITEMS ARE MISSING FROM BQ. CONFIRM THAT RESPONDENT CAN ANSWER AT LEAST ONE OF THESE ITEMS.

After reviewing these items and pressing <ENTER> on the last of the review screens, the interviewer is presented with the respondent roster (RR1) in order to select the respondent who will attempt to answer the missing data questions.

If a respondent is selected, the application is steered to the first of the missing data items followed by all remaining missing data items. After entering an answer for each item and there is no missing data, the interviewer is returned to BQEND.

The items in BQ that may be flagged for data retrieval are as follows:

BQ10 (race)
BQ13 or BQ14 (marital status)

"MISSING DATA" on the BQ_MISS screen and at the navigate screen can be set to COMPLETE if none of the items in the missing data module are flagged "-8" (DK). Otherwise, the MD module remains open.

If there is no BQ missing data, that is "1" is not a viable entry, display a message at the bottom of this screen: "THERE IS NO BQ MISSING DATA."
For any critical items with invalid responses (as specified in the programmer specifications for the Background Questionnaire), display flush left, the screen name of the missing item and in a second column the screen text for that item. Display the items in the same sequence in which they appear in the application.

THE FOLLOWING ITEMS ARE MISSING FROM BQ. CONFIRM THAT RESPONDENT CAN ANSWER AT LEAST ONE OF THESE ITEMS.

(BQ10  SP’S RACIAL BACKGROUND?)
(BQ13  SP’S MARITAL STATUS ON JANUARY 1, 1996?)
(BQ14  SP’S MARITAL STATUS ON KAD?)

PRESS ENTER TO CONTINUE.

PROGRAMMER SPECS: After pressing enter on the last BQ_MISS screen, the application should go to the respondent roster with the cursor on the first entry in the roster, RR1.

PROGRAMMER SPECS: If coming to the Respondent Roster from BQ_MISS1, <ESCAPE> from the roster without identification of a respondent should return to the missing data management screen (BQ_MISS). If coming to the roster from BQ_MISS1 and a name is selected/added, <ESCAPE> from the roster takes the interviewer to the first facility level item flagged as missing.

IN THIS FACILITY

OTHER NURSING HOME OR REHAB CENTER:
Nursing homes or rehab centers are licensed or certified facilities that provide nursing services 24 hours a day to the residents. Rehabilitation centers provide skilled nursing care or rehabilitation services and other related health services.

A RESIDENTIAL CARE FACILITY:
Residential care facilities or apartment buildings offer residents help with activities, such as bathing and dressing, but do not provide 24-hour nursing services. (Some residents at a residential care facility may not require such assistance, but it must be available to them). These facilities are sometimes called assisted-living communities, personal care homes, board and care homes, or domiciliary homes.

CCRC OR RETIREMENT CENTER OR HOME:
CCRC and retirement centers or homes may have nursing home facilities on a campus along with other housing and services, such as apartments, board and care services, and often a variety of community-based long-term care services.

BQ2

RESIDENTIAL CARE FACILITY

Assisted living facilities, board and care home, domiciliary care homes, personal care homes, and rest homes are various terms for residential care facilities: places that offer residents help with activities such as bathing and dressing, but do not provide 24-hour nursing services. (Some residents at a residential care facility may not require such assistance, but it must be available to them.)

Some other common terms for residential care facilities: (IL) shelter care facilities, community living facilities; community residential alternatives; home individualized programs. (MD) group home for the mentally disabled; group senior assisted housing for the elderly. (MO) residential care centers; group care homes; group homes (adult); foster care homes; group homes. (VA) homes for adults; residential facilities.

LONG-TERM CARE FACILITY

A place that provides a residence and some surveillance and available living assistance for persons no longer willing or able to live on their own for the long term.

BQ21

"Living daughters" includes natural, adopted, and step-children.

BQ22

"Living sons" includes natural, adopted, and step-children.

BQ23

"Living sisters" includes siblings related to the sampled person by blood, adoption, or marriage.

BQ24

"Living brothers" includes siblings related to the sampled person by blood, adoption, or marriage.

BQ25

"Mother" refers to natural or step-mother.

BQ25

"Father refers to natural or step-father.

IN12

Part A of Medicare is hospital insurance: pays part of inpatient hospital care and some nursing home, home health, and hospice care. About 98 percent of Americans over age 65 receive Part A without charge; some others, e.g., those with disabilities and those over 65 who are among the 2 percent, purchase Part A or have it purchased for them.
IN13

Part B of Medicare is supplemental medical insurance: pays part of doctors’ services, outpatient hospital services, medical equipment, and some other services not covered by Part A. Persons who have Part A may purchase Part B.

IN22

CHAMPUS is a program that covers both active duty and retired military personnel, their dependents, and survivors. CHAMPVA is a program that covers disabled veterans, their dependents, and survivors. CHAMPUS and CHAMPVA do NOT include veterans or survivors monthly benefits nor plans such as the Army Health Plan, the Air Force Health Plan, and so on, that provide medical benefits to enlisted personnel, dependents, and some civilian employees.
